

NET Resin™

Super Premium Resin Ribbons for Near Edge Printers

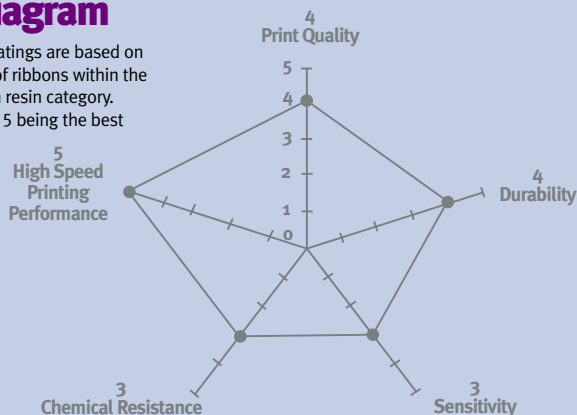

As with our NET Mark™ ribbons, NET Resin™ brings the quality, durability and flexibility of IIMAK® super premium resin ribbons together with our exclusive Near Edge Technology (NET)™. In applications where resin ribbons are required for printers equipped with near-edge printheads, NET Resin is the ideal solution. Designed to print up to 8 IPS, this ribbon delivers high-quality output and superior abrasion, chemical and heat resistance. When it comes to harsh environment labeling, there's no better solution for near-edge printers than NET Resin ribbons from IIMAK.

Recommended Media

- * Polyethylene films
- * Polypropylene films
- * Polyester films

Star Diagram

Performance Ratings are based on a comparison of ribbons within the super premium resin category. Scale of 1 to 5, 5 being the best

Technical Specifications

Maximum Print Speed:8 IPS
Film Thickness:4.5 Microns
Total Ribbon Thickness:7.0 Microns
Transmission Density:1.20 MacBeth Scale
Ink Melting Point:85°C/185°F

Applications

- * Textile and apparel applications
- * Nursery and lumber applications
- * Outdoor applications
- * Chemical drum labeling
- * Medical and pharmaceutical labeling
- * Industrial applications
- * Automotive applications
- * Flexible packaging applications

Sample NET Resin Ribbons

- Part # CES102RX – 102mm x 50m – CSI (for NOVEXX® printers)
- Part # CES106RX – 106mm x 50m – CSO (for TEC® BX printers)
- Part # CES220R8 – 220mm x 50m – CSO (for TEC® B-872 printers)
- Part # CES055RX – 55mm x 100m – CSI (for Markem® Smart Date2 printers)
