NET FLEX

NEW! WAX/RESIN FOR NEAR EDGE PRINTERS IMPROVED QUALITY FOR FLEXIBLE PACKAGING

NET FLEX's anti-static formulation delivers blacker, bolder prints with good durability. With print speeds up to 24 IPS, NET FLEX is compatible with near edge printers and coders such as Markem SmartDate® and VideoJet DataFlex®.

BENEFITS

- Bolder, blacker imprints for date, price, lot, and bar codes
- Prints at coder's standard darkness setting so no adjustments are needed
- Also performs well at lower darkness settings for enhanced printhead life
- Anti-static design reduces static discharge so packing lines can run faster
- Print up to 24 IPS
- Good smudge resistance
- Prints on a wide range of uncoated and top coated packaging films

Compatible with near edge thermal transfer coders, including: Markem® SmartDate®, Videojet® Dataflex®, Norwood® Jaguar, Linx and Zodiac/ICE

RECOMMENDED STOCKS

Polypropylene • Polyethylene • Polyester

COLORS

Black

White

Metallic Silver
